SECRETARY OF STATE
STATE OF IDAHO

Born, raised, and graduated High School in Southeastern Idaho. Graduate of Idaho State University.

Married to Paige Armstrong, large family. Career in international finance and investing, Merrill Lynch, for 38 years. I have an agricultural background and currently operate a small farm. School Board trustee for 8 years.

I have extensive experience in managing money, budgeting, and investments. I am intimately familiar with the needs and concerns of education.

You should vote for me if you are looking for someone who will be reliably conservative.

The legislative trend in America today is troubling and dangerous. We need political leaders who will hold firmly to the conservative values and culture that have made Idaho and America great.

Simply stated: I give you my unwavering pledge to hold the line on taxes and further governmental encroachment into your lives and businesses.
