Why vote for me?

Millions of voters of all political stripes have heard the words of Donald Trump and Bernie Sanders condemning "Free Trade", unregulated banking, and overseas relocation of American companies. The masters of both parties are horrified by the success of these gentlemen and are doing everything in their power to derail their candidacies.

The constitution tells Congress to regulate commerce with nations because the framers knew that commercial enterprises can destroy a nation as surely as they can build one.

Congress could ask two questions of any enterprise doing business in the United States:

- (1) Do you remove more money from the economy than you bring in?
(2) Do you transfer proprietorship of our natural resources and other assets to foreigners?

We need congressmen who are willing to regulate commerce with these questions in mind and are not willing to relinquish this authority to a president who will in turn relinquish that authority to an international organization like the WTO.

I ask you to be counted as one who supports these principles by voting for me.
