SECRETARY OF STATE  
STATE OF IDAHO

My name is Tammy Nichols, and I reside in Caldwell. I have been married 20 years to my wonderful husband Jamie, together we have 5 beautiful children (4 boys and 1 girl). I am not a politician, but I am a 7th generation Idahoan with deep ties to farming, Idaho values, and pioneer heritage.

I am a graduate from BYU-I, I run a home business as well as a small family farm where we raise goats, chickens, pigs and much more! I love my community and work hard as a volunteer within it.

Born and raised in Boise, Idaho I learned early the value of hard work, teamwork, and perseverance. I began working at the age of 6 years old as I grew up in a family which owned and operated several private schools and day care centers in the Boise area. I graduated from Boise High School where I participated in the student body government, as well as on the "Brave Sensation" Dance/Drill Team.

I am invested in my community and has served in a wide variety of capacities and leadership positions. I have coached youth soccer and basketball, worked with the Cub Scouts and Boy Scouts programs, and have participated in various service projects and community events including The March of Dimes. As a school volunteer, I have participated as a classroom mom, "field trip chaperone", and with projects such as fund raisers, teacher appreciation days, pictures days and many other activities and functions. As a church volunteer, I have served participating with the children's music program and youth girl's activity group. I have also served as Sunday school teacher, youth organizational president, and currently serve as the secretary in the women's relief organization.

Experience in the banking industry, serving on several boards of directors as treasurer, and handling the financial responsibilities of my own small business and family finances has taught me how to be financially conservative, whether it be in business or personal . I do not have a spend thrift mentality. I grew up in a family business, I learned early the importance of financial responsibility and what it took to make a living. This is how I function in my own business and in my family. When you are entrusted with the money of the public, it should mean even greater responsibility and higher standards in the way in which you use and spend that money.

I have worked with several local and national organizations on various issues that concern not only Idaho, but also our nation. These include educational issues, the 2nd Amendment, Constitutional Amendments, taxes, marriage, abortion and more. I have had the opportunity to speak and work with many national and state leaders regarding these important issues. This has been a very valuable, and educational experience for myself.

Today, I want to serve as *your* voice in the Idaho legislature. A voice that echoes your concerns. A voice that matters. A voice that cares, and resonates common sense. A voice that does not ignore you.

### Why You Should Vote For Me:

I have a great deal of experience in many issues concerning our state. I also want the people of my district to have their voices heard. I will also use the following criteria's when making legislative decisions: Is it constitutional, is it necessary, can we afford it, and how does it impact the state and the people. I will also use common sense in making all decisions. This sets me apart from my opponents.
