H503 (M)	(By Reps. Eskridge, Anderson, Deal, Henderson, Nonim, Bayer and Sens. Keough, Broadsword) Puts a 3% cap on increases in valuation on residential property used as a primary residence. This legislation has no impact on state general funds, however, the State Tax Commission estimates a reduction in 2005 taxable values by \$2.9 billion, resulting in a tax shift of about \$42.5 million in taxes the first year and a reduction in the school M&O of about \$10 million in the second year. H504 (M)	(By Sens. Werk, Keough, Corder and Reps. Jaquet, Anderson, Saylor) Works within the existing framework of Idaho Impact Fee code to provide impact fees for the construction of K-12 education facilities related to growth. School districts would be given very limited authority to enact an impact fee ordinance (in conformance with all existing requirements) and expenditure of fees would be allowed only within the county where they are collected. H505 (M)	(By Rep. Ken Roberts) Repeals school M&O levy. Funds would be replaced, up to the equalized funding level, by an increased General Fund appropriation to public schools. Source of additional General Funds would be raising the State Sales Tax to 6%. This would have no impact on 114 of the state's 114 school districts, and no impact on charter schools. It removes nearly \$290 million in FY 2007 School M&O property taxes. The state would replace approximately \$244 million, up to the equalized funding level provided to 114 of the 114 school districts, assuming that funding is provided for a 3% increase in per support unit discretionary funds. Legislation allows the four wealthiest school districts to levy the difference between what they are receiving now from their M&O levy and what the state will provide in equalized funding (they currently receive no state equalization funding). The \$244 million state cost would be mostly covered through the \$210 million raised by increasing the Sales Tax from 5% to 6%, with the balance absorbed by future economic growth. The result is a net \$34 million tax reduction.	Heard in Revenue & Taxation		
H506 (M)	(By Rep. Nicole LeFavour) Makes the Circuit Breaker property tax relief program available to a class of non-elderly working people whose total property tax meets or exceeds 10% of their annual adjusted gross income from all sources. Qualification for this program is intended to use the same income brackets and ceiling as the existing Circuit Breaker but also requires qualification based on the Federal Earned Income Tax Credit which provides income tax relief to 97,765 working families in Idaho. By targeting this segment of the circuit breaker at those whose property tax meets or exceeds 10% of their income, this program will focus relief on those states in those areas where property tax is highest, particularly compared to wages and earned income. With 97,765 people qualifying for the Federal EITC in 2005, weighted heavily toward those living in areas with high property values, impact to the State general fund will be \$16 million, essentially doubling the size of the Circuit Breaker program.
