# Education in Idaho

The Constitution of the State of Idaho provides for the creation of the State Board of Education, which is responsible for the general supervision of state educational institutions and the public school system. The constitution also provides for a Board of Regents of the University of Idaho; by statute, these boards are the same.

The State Board of Education is composed of the State Superintendent of Public Instruction and seven members appointed by the governor to serve five-year terms. The Superintendent of Public Instruction is an ex officio, voting board member. The board:

- Sets statewide policy for the public schools, grades K-12.
- Governs and hires chief executive officers for the Division of Professional-Technical Education, the Division of Vocational Rehabilitation, Idaho Public Television, Boise State University, Idaho State University, Lewis-Clark State College and the University of Idaho.
- Approves programs and submits state budget requests for the two community colleges, North Idaho College and the College of Southern Idaho, which are governed by local boards of trustees.
- Appoints members to the board of trustees that govern the State Library and State Historical Society.

Indirectly and/or cooperatively with other agencies, the State Board of Education has responsibilities for other facets of the total educational programs of the state. Among these responsibilities are driver training programs, the school lunch program, the educational program for exceptional children (handicapped and gifted), private school and college organizations, and the regulation of private technical, trade and business colleges.

The State Superintendent of Public Instruction is the chief public school officer and is responsible for the overall coordination of work in the State Department of Education. It is the obligation of the superintendent to carry out the policies and directives of the State Board and recommend policy to the Board for educational improvement. The Superintendent carries out the mandates of the legislature as they relate to public school education. The Superintendent is responsible for the total education program of approximately 244,403 students in Idaho's 113 school districts.

The State Department of Education has three recognized functions: service, leadership and regulation.

## Endowment Funds

Idaho's endowment funds for education are derived from the "grant lands" given by the federal government to the state when Idaho was admitted to the Union. These lands are not the same as "public lands" which belong to the U.S. Government.

All revenue obtained from the sale of "grant lands" (authorized by the state constitution), and the sale of minerals, lumber and easements on these lands is placed in the endowment funds. In addition, revenue received from escheat estates and gifts also goes into the endowment funds as do five percent of the revenues collected by the federal government from the sale of public lands. Receipts from the harvest of forest products form the bulk of revenue obtained from "grant lands."

Endowment or "grant lands" funds form an everlasting sacred trust. Interest income from the fund is used primarily for education.

In fiscal year 2000, \$48.7 million dollars in interest income was distributed to endowment institutions. The vast majority of these funds is directly attributed to the Idaho Department of Lands activities. In the beginning, funds only could be invested in farm mortgages and state or United States bonds. Today, however, permanent endowment funds can be loaned by the Idaho Investment Board through the Department of Finance on U.S., state, county, city, village

or school district bonds, state warrants, or corporate bonds.

Forest management activities on “grant lands” have become fully integrated with various other land-use activities. Management and protection of the forest resource is a multiple-use program designed to derive the greatest benefits of revenue, total resource perpetuation and public use.

### Idaho Endowment Lands and Funds

Institution	Acres	Percent of Total	Perm Endow June 2000*	Percent of Total

# State Colleges and Universities

## Boise State University

President: Dr. Robert Kustra, Boise, Idaho 83725 (208) 426-1491

Internet Site: [www.boisestate.edu/](http://www.boisestate.edu/)

Degrees Granted: Doctorate degree in education; Master's degrees in 33 disciplines; Bachelor's degrees in 63 undergraduate disciplines; Associate's degrees in 6 disciplines; Associate of Applied Science in 21 fields; Technical Certificates in 26 fields.

Founded in 1932 by the Episcopal Church, Boise State has grown from private status to a public taxing district to a comprehensive state university in the Idaho system of higher education. It was named a university in 1974. The university is fully accredited by the Northwest Association of Schools and Colleges, and further accreditation is held in several programs, including business, education, music, nursing, social work and construction management. Centered in one of the most dynamic cities in the Northwest, Boise State's primary academic emphasis areas are related to its location, and include Business, Social Sciences, Public Affairs, the Performing Arts, Education, and Engineering. Programs in Health Sciences, Sciences, Liberal Arts, Engineering, and Applied Technology are offered.

Majors are offered in the colleges of Arts and Sciences; Business and Economics; Engineering; Applied Technology; Health Sciences; Education; Social Sciences and Public Affairs; and Graduate Studies; and the school of Social Work.

General educational and cultural opportunities are offered to the public during the year through BSU's theatre and music seasons, lecture series, popular concerts, art exhibits, and special workshops.

BSU occupies a 110-acre campus just a few blocks from the heart of downtown Boise. Located on the banks of the scenic Boise River, the University's 60 major buildings provide for the educational, recreational and housing requirements of the students. BSU also operates a satellite campus in Canyon County and offers courses at the College of Southern Idaho, Gowen Field, Mountain Home Air Force Base and other locations in the Treasure Valley.

Campus facilities include The Pavilion, capacity 12,500; the Velma V. Morrison Center for the Performing Arts, 2,000; and Bronco Stadium, 30,000. The Hemingway Western Studies Center is a focus for programs on western life and culture, and the Albertsons Library includes the Frank Church and Cecil D. Andrus Collections, and the Warren McCain Collection on Western Life.

Public broadcasting services are provided by the KBSU Radio network, which is affiliated with both American and National public radio, BSU also offers courses via cable television, microwave compressed video, and computers.

Because Boise State is in the governmental, medical and business heart of Idaho, students and faculty interact with school districts, health care institutions, government agencies, and corporations. Boise State has the largest evening program in Idaho, provides several short courses to meet special needs and sponsors one of the largest internship programs in the Northwest.

The BSU faculty is especially active in research and public service that benefits Idaho and its citizens. The Idaho Small Business Development Center, for example, helps businesses throughout the state through consulting, workshops, and other services. The University includes research centers in geophysics, raptor biology, geology, education, electrical engineering, public administration and psychology.

Through all of its programs, Boise State University is fulfilling its commitment to the State of Idaho by providing quality teaching, research and public service to all its citizens.

## **College of Southern Idaho**

President: Dr. Gerald R. Meyerhoeffer, Twin Falls, Idaho 83303-1238  
(208) 733-9554

Internet Site: <http://www.csi.cc.id.us/>

Degrees Granted: Associate and Certificate

The College of Southern Idaho is a two-year comprehensive community college serving south central Idaho. While 55 percent of the studentbody comes from the Community College District of Twin Falls and Jerome counties, 86 percent of the students are from the eight-county Magic Valley service area. The remaining 14 percent are from other Idaho counties, other states and countries. With over 80 percent headcount increase in academic enrollment since 1990, CSI is the fastest growing public institution of higher education in Idaho.

Doors opened at CSI in 1965 and since that time, the college has acquired a 300-acre campus with 15 major buildings with an assessed valuation of approximately \$60 million.

The College is comprehensive in nature and has a number of purposes. It provides university parallel curricula in a number of areas, a program of general education, vocational-technical curricula in seventeen fields, continuing and adult education and community services. Outreach centers are operated in Burley, Hailey and Gooding.

Students may qualify for either an Associate of Science or an Associate of Arts degree and graduates of the PN or ADN-RN programs are prepared to take the national exam for licensure. The excellent instructional programs are complemented by equally good programs in cultural, social and athletic pursuits.

## **Eastern Idaho Technical College**

President: Dr. Miles LaRowe, 1600 S. 25th E., Idaho Falls, ID 83404 (208) 524-3000

Internet Site: <http://www.eitc.edu/>

Eastern Idaho Technical College in Idaho Falls offers educational programs in professional-technical fields, short-term customized training, continuing education and community services to meet the needs of students, business and industry, and the communities in its service delivery area (Lemhi, Custer, Butte, Fremont, Madison, Teton, Jefferson, Clark, and Bonneville counties). Ninety-nine percent of the campus' students are Idaho residents. During fiscal year 1999, the College enrolled more than 1500 credit course students, and more than 10,000 students in a combination of short-term training, adult basic education, and community education courses. The College establishes and maintains collaborative partnerships with area school districts, universities, business and industry, government agencies, and other regional entities, to promote economic development and coordinate delivery of services. Also offered are joint high school and EITC programs, through Tech Prep and the Eastern Idaho Professional-Technical High School. The College's Idaho Hazardous Materials Training Center, located in Pocatello, Idaho, serves more than 650 students per year. EITC, created in 1969, is accredited by the Northwest Association of Schools and Colleges. The College's Foundation has a net worth of \$1 million.

## **Idaho State University**

President: Dr. Richard Bowen, Pocatello, ID. 83209 (208) 236-3440

Internet Site: [www.isu.edu](http://www.isu.edu)

Degrees Granted: Associate, Baccalaureate, Master's, Educational Specialist Certificates, Doctoral, Vocational Certificates

Founded in Pocatello in 1901 as the Academy of Idaho, what is now Idaho State University was renamed Idaho Technical Institute in 1915 and became the Southern Branch of the University of Idaho in 1927. In 1947, it was reorganized as Idaho State College and was awarded university status by the Idaho Legislature in 1963. Credits awarded by ISU are accepted at

all recognized colleges and universities in the United States.

Today, ISU enrolls more than 12,500 students each semester in more than 200 top-flight certificate and degree programs in the colleges of Arts and Sciences, Business, Education, Engineering, Health Professions, and Pharmacy, the School of Applied Technology, and the Graduate School. As the state's designated leader for education in the health professions, ISU trains health-care professionals in fields ranging from dental hygiene and dietetics to nursing, physical therapy and radiology, as well as offering a residency for physicians specializing in family practice. The Pocatello Family Medicine clinic operated in conjunction with Bannock Medical Regional Medical Center, offers resident physicians and other health care students opportunities for clinical experience.

ISU enrolls more than 2,500 students each semester in 47 master's and 11 doctoral programs, including doctor of philosophy, doctor of education and doctor of arts degrees. ISU pioneered the doctor of arts degree, which emphasizes excellence in college teaching in interdisciplinary programs in English, biology, mathematics and political science. In addition, a doctoral degree in nuclear science and engineering and an interdisciplinary master's degree in hazardous waste management are offered in conjunction with the University of Idaho and the Idaho National Engineering and Environmental Laboratory.

Idahoans who cannot come to the Pocatello campus can receive ISU educational services through a variety of innovative means. The Idaho State University/University of Idaho Center for Higher Education at Idaho Falls offers many complete programs, including the first two years of any degree program at an Idaho public institution, to residents of the Upper Snake River Valley. Both daytime and night courses are offered, as well as the new "weekend college" program that offers classes on Fridays and Saturdays to accommodate working people and other nontraditional students. ISU also offers academic programs at outreach center at Twin Falls and Boise and delivers regular university courses, continuing education classes and special programs for high school students to outlying communities via sophisticated two-way audio-video technology.

In addition to its outstanding academic and applied technology classroom and laboratory facilities, ISU is also home to the Holt Arena, the first indoor stadium on a U.S. college campus; the Oboler Library, which houses almost three-quarters of a million books and other items; and the Idaho Museum of Natural History. The ISU Research and Business Park is home to the ISU Center for Business Research; the Idaho Veterans Home, operated in conjunction with the State of Idaho; the new offices of the Southeastern District Health Department; and the newly opened Idaho Accelerator Center, operated by ISU in cooperation with the Department of Energy and the INEEL and housing particle accelerators for nuclear research and applications in medicine, agriculture and industry. The Research and Business Park also helped provide for a major expansion of the AMI plant and helped attract Ballard Medical to Pocatello, projects that have major economic consequences for Pocatello and the state.

ISU plans to break ground in the next year for the L.E. and Thelma Stephens Performing Arts Center, a \$25 million state-of-the-art venue for drama, and dance events and instruction that will be funded by private donations raised during ISU's first-ever capital campaign, a centerpiece of ISU's centennial celebration of 2001-2002.

## **Lewis-Clark State College**

President: Dr. Dene Kay Thomas, Lewiston, Idaho 83501 (208) 799-2216

Internet Site: [www.lsc.edu](http://www.lsc.edu)

Degrees Granted: Associate, Baccalaureate, Certificate of Completion

Lewis-Clark State College, is a regional undergraduate institution. It offers baccalaureate majors in education, nursing, business, social work, criminal justice, as well as in the liberal arts and sciences. The college has a wide variety of strong vocational-technical programs leading to certificates, associate degrees and, for students who wish, the bachelor degree in Applied

Technology. The college also offers several programs for individuals with other educational goals including a large General Education Development program.

Lewis-Clark State College makes substantial contributions to the quality of life in the region. It maintains outreach centers in several North Central Idaho counties and operates a branch in Coeur d'Alene. Through those centers, the College makes its services available to citizens throughout North Central Idaho.

Lewis-Clark State College is fully accredited by the Northwest Association of Schools and Colleges. The BSN nursing program is fully accredited by the National League for Nursing. The teacher education program is accredited by the National Council for the Accreditation of Teacher Education and Certification and by the National Association of State Directors of Teacher Education and Certification. The Social Work major is accredited by the Council on Social Work Education.

## **North Idaho College**

President: Dr. Michael Burke, Coeur d'Alene, Idaho 83814 (208) 769-3301

Internet Site: <http://www.nic.edu/>

Degrees Granted: Associate and Certificate

North Idaho College was first known as Coeur d'Alene Junior College, a private school that was started in 1933 and operated for six years. The state legislature, in January 1939, passed the Junior College Act which permitted qualified areas to establish junior college districts by a vote of eligible electors. Coeur d'Alene Junior College became North Idaho Junior College in June of 1939. On July 31, 1971, the college changed its name to North Idaho College. NIC's service area is the Idaho Panhandle, which includes Kootenai, Benewah, Bonner, Shoshone, and Boundary counties.

As a comprehensive community college, North Idaho College offers the first two years toward a Bachelor's degree in most academic disciplines and nineteen occupational programs. A wide range of non-credit special interest and job training non-credited offerings are also offered through the NIC work force training center in Post Falls.

## **University of Idaho**

Interim President: Gary Michael, Moscow, Idaho 83844-3151 (208) 885-6365

Internet Site: <http://www.uidaho.edu/>

Degrees Granted: Baccalaureate in 112 disciplines; Masters in 74 disciplines; Specialist in 7 disciplines; Professional in 1 discipline; Doctoral in 24 disciplines.

The University of Idaho was created in 1889, by a statute of the 15th territorial legislature. Commonly known as the university charter, that act became part of the State Constitution when Idaho became a state in 1890.

The University is a publicly supported comprehensive land-grant institution with principal responsibility for performing research and granting Ph.D. degrees in Idaho. The liberal arts and sciences, offered through the College of Letters and Science, are the heart of the University's educational programs. The primary areas of statewide responsibility of the University are agriculture, architecture, engineering, forestry, wildlife and range sciences, mining and metallurgy, foreign languages and law (including international programs in several of those areas).

To fulfill its statewide mission, the University also maintains resident instructional centers in Boise, Twin Falls, Coeur d'Alene and Idaho Falls; operates research and extension centers in Aberdeen, Caldwell, Kimberly, Parma, Sandpoint, Teton and Dubois; and operates extension offices with satellite downlinks in 42 of Idaho's 44 counties.

There are programs of instruction in 149 subject areas. The University structure includes the College of Letters and Science, the College of Agriculture, the College of Art and Architecture, the College of Business and Economics, the College of Education, the College

of Engineering, the College of Forestry, Wildlife and Range Sciences, the College of Graduate Studies, the College of Law, the College of Mines and Earth Resources, the University of Idaho faculty of the Washington-Oregon-Idaho Regional Program in Veterinary Medicine and the WAMI Regional Medical Program.

The University Library contains over 1.25 million volumes of books, bound periodicals, microforms and U.S. government publications. The library building has recently undergone extensive renovation and expansion. These resources, together with the libraries at Washington State University (eight miles to the west), equal those of major metropolitan areas.

Comprehensive research programs aimed at improving the management and use of the state's agricultural, mineral, forest, range, recreation, and water resources are administered by the University's Agricultural Experiment Station situated in seven regional locations; Forest, Wildlife and Range Sciences Experiment Station; and Water Resources Research Institute.

Similarly, there is a wealth of additional research and service that contribute to the advancement of knowledge and technology which benefit industry, commerce, government, education and social services stateside, nationally and internationally. Research is initiated by individual investigators and/or through faculty expertise concentrated in specific, mission-oriented research centers and institutes, including: Center for Business Development and Research; Bureau of Public Affairs Research; Bureau of Educational Research and Services; Glaciological and Arctic Sciences Institute; Geologic Survey; Center for Hazardous Waste Remediation; Institute for Molecular and Agricultural Genetic Engineering; Postharvest Institute for Perishables; Aquaculture Research Institute; Martin Institute for Peace Studies and Conflict Resolution; Water Resources Research Institute; Microelectronics Research and Communications Institute; National Center for Advanced Transportation Technology; Wildlife Research Institute; and the Institute for Materials and Advanced Processes; and the Center for Ethical Theory and Honor in Competitive Sports.

The University also operates joint programs with Boise State University, Idaho State University, Lewis Clark State College, Albertson College of Idaho, Washington State University, University of Washington and Oregon State University.

The University is a member of the National Association of State Universities and Land-Grant Colleges and is accredited by the Northwest Association of Schools and Colleges. Additional approval or accreditation for specific programs has been granted by a wide range of national organizations.

## **Idaho Electronic Campus**

The Idaho Electronic Campus links you to more than 12 programs and over 500 courses from the state's seven publicly funded colleges and universities. You can find courses on a great variety of subjects delivered by all types of methods: the Internet, television, and radio. College and university programs and courses from around the state are as close as your fingertips.

\*Identify programs and courses that are available electronically.

\*Connect directly to the college or university to learn about registration, cost, etc.

The participating college or university will provide you with detailed information about:

- \* Admissions
- \*Registration
- \*Credit transfer
- \*How program and courses are delivered
- \*Financial aid
- \*Prerequisites and other enrollment matters
- \*Tuition and fees
- \*Refunds

For additional information go to <http://www.idahoe-campus.state.id.us/>

# Independent Colleges

## Albertson College of Idaho

President: Dr. Kevin Learned, Caldwell, Idaho 83605 (208) 459-5011

Internet Site: [www.albertson.edu](http://www.albertson.edu)

Degrees Granted: Bachelor of Arts, Bachelor of Science, Master of Education, Master of Arts

Albertson College is a private, liberal arts institution. Founded in 1891 as the College of Idaho, it is an independent institution managed by a self-perpetuating Board of Trustees and accredited by the Northwest Association of Schools and Colleges.

The College seeks to provide a challenging academic environment with a high degree of faculty contact, an emphasis on moral precepts and a strong liberal arts orientation. More than ninety percent of the full-time faculty have doctorate or equivalent degrees. A faculty-student ratio of 1:11 is maintained.

Albertson College has a curriculum that is firmly grounded in the liberal arts. The institution has been nationally recognized for its academic programs and has produced six Rhodes Scholars since 1954. In recent years, other college graduates have been named Marshall, Truman, Wilson, Fulbright, National Hispanic and Rotary International Scholars while others have been tabbed as Mellon, Danforth and National Science Foundation Fellows.

Over the past several years, more than 95 percent of Albertson pre-law and pre-medicine students who applied to professional schools were accepted.

Albertson is named one of the best regional liberal arts colleges in the West by *U.S. News and World Report*, and is also included in the *Peterson's Guide to Competitive Colleges* and *Fiske's Guide to Colleges*, among other selective college guides.

Alumni include former governors of two states, a Pulitzer Prize-winning historian, the codiscoverer of vitamin B-12, an Academy Award-winning musician, the founder of Albertsons, Inc., the co-founder of Patagonia Outerwear, and many leaders in business, science, education, medicine, law, the arts and government.

## **Boise Bible College**

President: Charles A. Crane, 8695 Marigold, Boise, Idaho 83714 (208) 376-7731

Degrees Granted: Bachelor of Arts, Bachelor of Science, Associate of Science in Ministry, Christian Education, Christian Music, and Youth Ministry

Boise Bible College was started in 1945 in a local church with the purpose of training preachers and teachers to occupy leadership positions in Northwest churches.

In 1975 the College was reorganized under a board of directors and moved to the 16 acre Marigold Street campus. It received accreditation as a four-year nondenominational college through the Accrediting Association of Bible Colleges in 1998.

Students who attend BBC are eligible for Government loans and grants, college work-study funds, as well as VA and Social Security benefits. The College offers an excellent blend of biblical studies, general education and Christian ministries classes. Numerous intern and placement opportunities are available. The college mission is to prepare students for careers in Christian vocations, including para-church positions.

## **Northwest Nazarene University**

President: Dr. Richard A. Hagood, Nampa, Idaho 83686-5897 (208)467-8011

Internet Site: [www.nnu.edu/](http://www.nnu.edu/)

Degrees Granted: Bachelor of Arts, Bachelor of Science, Bachelor of Science in Nursing, Bachelor of Science in Applied Studies, Graduate programs in Education, Business, Ministry, and Social Work.

Northwest Nazarene University is a private, liberal arts university with 102 full-time faculty, 65% with doctorates or terminal degrees, 15 part-time faculty, and 115 Continuing Studies faculty. Programs are offered in the several areas of humanities, natural science, social science, fine arts, education, business, ministry, health, physical education and social work. It offers graduate programs in teacher education and counseling, ministry, business administration, and social work.

NNU has been consistently ranked recently by *U.S. News and World Report* as one of the top ten regional liberal arts colleges in the western United States and as a leading character-building college by the Templeton Foundation. The university is accredited by the Northwest Association of Schools and Colleges and has specialized accreditation in teacher education, music, and social work. A 1989 report by the National Council for the Accreditation of Teacher Education cited the field and clinic experience program as "outstanding and worthy of study by other colleges and universities."

Alumni from the university have distinguished themselves in education, business, ministry, and numerous other fields and includes two Rhodes Scholars and a NASA astronaut.

## **Brigham Young University - Idaho**

President: Dr. David A. Bednar, Rexburg, Idaho 83460 (208) 356-1113

Internet Site: <http://www.byui.edu/>

Degrees Granted: Associate Degree, One-Year Certificate, Specialized Associate, Two-year Certificate, Baccalaureate Degree

Founded on November 12, 1888 when the Bannock Stake of the Church of Jesus Christ of Latter-day Saints established the Bannock Stake Academy. The school has been known as Fremont Stake Academy, Ricks Academy, Ricks Normal College, and Ricks College. As BYU-Idaho, we are still affiliated with The Church of Jesus Christ of Latter-day Saints. Over the years it has grown from a small church academy mainly serving students from the Upper Snake River Valley of Idaho to a worldwide institution serving more than 9,000 full-time students from all 50 states and more than 40 countries. The institution will emphasize undergraduate education and will award baccalaureate degrees; graduate degree programs will not be offered. Faculty rank

will not be a part of the academic structure of the new four-year institution. BYU-Idaho will operate on an expanded year-round basis, incorporating innovative calendaring and scheduling while also taking advantage of advancements in technology which will enable the four-year institution to serve more students. In addition, BYU-Idaho will phase out its involvement in intercollegiate athletics and shift its emphasis to a year-round activity program designed to involve and meet the needs of a diverse student body.
